

105. Have you been discouraged or pressured in any way to not discuss problems with the Edison Financial component? Please describe the situation:

Wave 1

None.

Wave 2

None.

Wave 3

1. Only in the sense that F&A and Edison leadership contend that only those who are "old dogs" have trouble with the system and that we should retire if we don't like it. Further, they blame the employees who are forced to use a weak system. So who wants to voice a concern only to be considered an old dog? Need proof? Listen to the channel 4 interview, the fiscal review presentation or the House F,W&M Committee presentation. It's all our fault!
